Detailed Inventory

PWS Name: Hooksett Village Water Precinct

PWSID: 1181020

Purpose of this worksheet: *To provide a format water systems can use to track materials for each service line in their distribution system.*

Location Information						System-Owned Portion										Customer-Owned Portion									Entire Service Line Material Classification	Other Potential Sources of Lead			Additional Information to Assign Tap Monitoring Tiering					Lead Service Line Replacements (LSLR)				Inventory Updates
PWS ID	Unique Service Line ID	Location Identifier			Sensitive Population? (Yes/No)	System-Owned Portion Service Line Material Classification	If Non-Lead in Column I, Was Material Ever Previously Lead?	Additional Material Classification Details	Service Line Installation Date	Service Line Size	Basis of Material Classification	Was the Service Line Material Field Verified?	If "Yes" Service Line Material Was Field Verified:		Notes	Customer-Owned Portion Service Line Material Classification	Additional Material Classification Details	Service Line Installation Date	Service Line Size	Basis of Material Classification	Was the Service Line Material Field Verified?	If "Yes" Service Line Material Was Field Verified:		Notes		Is there a Lead Connector?	Is there Lead Solder in the Service Line?	Describe Other Fittings and Equipment Connected to the Service Line that Contain Lead	Building Type Connected to Service Line	Point-of-Entry or Point-of-Use Treatment Present?	Does the Interior Building Plumbing Contain Copper Pipes with Lead Solder Installed Before New Hampshire Adopted the Federal Lead Ban in 1989?	Current or Past LCR Sampling Site?	Assigned LCRI Sample Tier	Status of System-Owned LSLR	Date of System-Owned LSLR	Status of Customer-Owned LSLR	Date of Customer-Owned LSLR	Date Service Line Inventory is Updated
		House No.	Street Name	Other Location Identifier									Describe the Field Verification Method	Enter the Date of Field Verification								Describe the Field Verification Method	Enter the Date of Field Verification															
Provide the 7-digit PWS ID number for this community	*A Unique ID is required for each service line*	*Water systems must track addresses of all service lines in their inventory. For the publicly accessible*			*Select Yes if sensitive subpopulation, e.g., day care, school, multifamily home. If Yes-Other, describe in the Notes field*	*Drop-down list includes classification options. If "Non-Lead Other", describe in Notes field*	*Select Yes, No, or Don't know. Important for determining if downstream/customer-owned galvanized service line*	*Select option from drop-down list to provide additional details about the service line material*	*Estimated year when the service line was installed or replaced (YYYY) If the year is unknown please enter "9999"*	*Select the diameter in inches from the drop-down list. If "other" describe in the Notes field*	*Select how the service line material was classified from the drop-down list. If "Other" describe in the Notes field*	*Select Yes or No if the service line was physically verified in the field*	*If "Yes" in column O, this field is required. Select how the service line was field verified from the drop-down list. If "Other," describe in the Notes field*	*If "Yes" in column O, this field is required. Enter approximate date of field verification (MM/DD/YYYY)*	*Use this field for documenting additional relevant information, including when classification changes*	*Drop-down list includes classification options. If "Non-Lead Other", describe in Notes field*	*Select option from drop-down list to provide additional details about the service line material*	*Estimated year when the service line was installed or replaced (YYYY) If the year is unknown please enter "9999"*	*Select the diameter in inches, from the drop-down list. If the size is not listed here, describe in the Notes field*	*Select how the service line material was classified from the drop-down list. If "Other" describe in the Notes field*	*Select Yes or No if the service line was physically verified in the field*	*If "Yes" in column X, this field is required. Select how the service line was field verified from the drop down list. If "Other," describe in the Notes field*	*If "Yes" in column X, this field is required. Enter approximate date of field verification (MM/DD/YYYY)*	*Use this field for documenting additional relevant information, including when classification changes*	*This column will auto-populate. The four required service line classifications of Lead, Non-lead, Galvanized Requiring Replacement, or Unknown are included*	*Select from the drop-down list. For example, lead gooseneck or pigtail where the water main is connected to the service line*	*Select Yes, No, or Don't Know*	*For example, backflow preventer or meter containing lead*	*Note: This information will be helpful for identifying lead tap monitoring locations.*				*Assign a LCRI Sample Tier 1-5 or Unknown. (see Table 3 in Classifying SLs tab for description)*	*Select from the drop-down list. Replaced: lead/GRR SL has been replaced Pending: SL is required to be replaced N/A: SL is non-lead and does not need replacement or SL is unknown*	*This is required if status is Replaced. Enter the date when the system-owned lead service line was replaced (MM/DD/YYYY)*	*Select from the drop-down list. Replaced: lead/GRR SL has been replaced Pending: SL is required to be replaced N/A: SL is non-lead and does not need replacement or SL is unknown*	*This is required if status is Replaced. Enter the date when the customer-owned lead service line was replaced (MM/DD/YYYY)*	*Enter the month and year the service line inventory is updated (MM/YYYY)*
